# Mohamed Mousa

## Senior Full-Stack .NET Developer | Enterprise Architecture & Clean Architecture CQRS Microservices Specialist

Puglia, Italy +39 333 686 3167 mohamed.mousa.contact@gmail.com linkedin.com/in/mohamedmousa-

github.com/mohamedmousa77 DOB: April 4, 2002

## PROFESSIONAL PROFILE

Senior Full-Stack Developer with 5+ years of experience building scalable, production-ready enterprise solutions using ASP.NET Core, C#, Angular 17+, and SQL Server. Solid mastery of Clean Architecture, Domain-Driven Design (DDD), CQRS, and microservices, with end-to-end ownership from database design to production deployment. Accustomed to operating in cross-functional, international teams (Italian, English, Arabic), with a strong focus on code quality, test coverage, and knowledge transfer through technical documentation and code reviews.

## TECHNICAL SKILLS

| | |
|---|---|
| **Backend:** | C# ASP.NET Core (Web API, MVC), .NET Framework, Entity Framework Core, Dapper, SignalR, WCF/SOAP, LINQ, Protobuf, JWT/OAuth2 |
| **Frontend:** | Angular (Signals, Standalone), TypeScript, JavaScript ES6+, RxJS, NgRx/Redux, HTML5/CSS3, SCSS, Bootstrap, Tailwind CSS |
| **Database:** | SQL Server T-SQL, PostgreSQL, MySQL, SSIS (ETL), EF Core Code-First, Stored Procedures, Query Optimization |
| **Architecture:** | Clean Architecture, DDD, CQRS, Microservices, gRPC, Repository Pattern, Unit of Work, SOLID, Design Patterns |
| **Cloud / DevOps:** | Azure (App Services, Functions, SQL DB, Service Bus), Docker, Kubernetes, GitHub Actions, Azure DevOps, Terraform (IaC), Git/SVN |
| **Testing & Tools:** | xUnit, NUnit, Moq, TDD/BDD, Integration Testing, Postman, Swagger/OpenAPI, SonarQube, Visual Studio 2022, VS Code, Rider, SSMS, RabbitMQ, Redis, UiPath (RPA), AutoMapper, FluentValidation, Serilog |
| **Mobile & Others:** | Flutter, Dart, Firebase, React Native \| Java, Spring Boot, React, C++ |
| **Methodologies:** | Agile/Scrum, Kanban, Code Review, Pair Programming, Technical Documentation, Knowledge Transfer |

## PROFESSIONAL EXPERIENCE

**Full-Stack .NET Developer (Curricular Internship) — Exprivia S.p.A.** Dec 2025 – May 2026 | Molfetta (BA), Italy (On-site/Hybrid)

*Stack: ASP.NET Core, Angular, SQL Server, Entity Framework Core, Docker, Azure DevOps, xUnit, NgRx*

**Enterprise Project: E-Commerce Platform — End-to-End Development**

- Designed and built a complete, production-ready e-commerce platform from scratch applying 4-layer Clean Architecture (Domain, Application, Infrastructure, API) and Domain-Driven Design, delivered entirely within the internship timeframe.
- Implemented 50+ RESTful endpoints in ASP.NET Core with JWT authentication, Repository + Unit of Work pattern, and EF Core Code-First migrations on SQL Server; average API response time kept under 200 ms.
- Developed an Angular SPA with 8 lazy-loaded modules, state management via NgRx, Smart/Dumb components pattern, and a multi-step checkout wizard, reducing perceived load time by ~40% compared to eager loading.
- Achieved over 70% unit test coverage (xUnit + Moq) with full compliance to SOLID principles; adopted SonarQube for continuous code quality analysis.
- Implemented Role-Based Access Control (Customer / Administrator) with a comprehensive admin dashboard for managing products, orders, and sales analytics.

- Containerized the application using Docker and configured CI pipelines on GitHub Actions; authored architecture and API contract documentation in Swagger/OpenAPI for knowledge transfer.

**Full-Stack Developer — Personal Financial Management Web Application** Jun 2024 – Oct 2025 | Remote (Freelance)

*Stack: ASP.NET Core, Angular, SQL Server, Entity Framework Core, Chart.js*

- Designed and deployed a SPA for personal budget management—tracking income, expenses, savings, and recurring bills—peaking at over 200 active users.
- Developed 30+ RESTful endpoints with EF Core Code-First and optimized T-SQL stored procedures through index tuning, reducing average query execution time by ~35%.
- Integrated interactive Chart.js dashboards with Angular reactive forms and advanced validation; implemented automated PDF/Excel export utilized in ~60% of sessions.
- Realized a push notification system for recurring payment reminders, improving timely payment rates by ~25% as reported by beta users.

**.NET Backend Developer — Enterprise Microservices — Distributed Systems** Jan 2021 – Apr 2024 | Remote (Various Projects)

*Stack: ASP.NET Core, C#, SQL Server, Docker, Kubernetes, RabbitMQ, Azure Service Bus, Azure DevOps*

- Contributed to the development of microservices architectures for enterprise clients, integrating message brokers (RabbitMQ, Azure Service Bus) for asynchronous inter-service communication.
- Participated in Agile/Scrum ceremonies, conducted code reviews, and produced structured technical documentation to facilitate the onboarding of new members in distributed international teams.
- Implemented API versioning strategies and structured logging with Serilog, significantly improving incident diagnosis times in production. (Details confidential under NDA).

**Mobile Developer — Cross-Platform Mobile Projects** 2018 – 2020 | Remote (Freelance)

*Stack: Flutter, Dart, Firebase (Auth, Firestore, Cloud Messaging)*

- Developed and published 10+ iOS/Android apps on the App Store and Google Play, including an e-commerce app (Wafra), an HR Point-of-Sale system, and an Attendance management platform.

## EDUCATION & TRAINING

**Higher Technical Diploma in Software Development — Developer 4.0** Expected Completion: Jun 2026
IST Apulia Digital Maker | Puglia, Italy

**Bachelor's Degree in Computer Science** 2022 – 2025
Shoulk Academy University | Egypt

**High School Diploma in Computer Science** 2017 – 2022
Don Bosco Salesian Institute | Egypt

## LANGUAGES

**Italian:** Fluent — C1/C2 (Reading, writing, professional conversation)
**English:** Advanced — B2/C1 (Reading, writing, technical conversation)
**Arabic:** Native
